* Control Panel

Access right at module and function level allow for control and accountability.

- i) Create Users: You can be create users by the software.
- ii) Users Group: It can be uses among a group of employees in a single time.
- iii) User's Right: Administration allows an admin to have full control on delegation of authority to the various employees so that their domain of operation may be restricted to their own department only. No employee is able to see/edit/modify the information that is not pertinent to his/her role in the organization. This acts as a great management tool and allows authorities to have direct control over the employees' access to the software and to the Hospital's information resources in general.

Sl. No.	User Name	User Group	User Status	User Role	User Access
1	Admin	Admin	Active	Admin	Full Access
2	Doctor	Doctor	Active	Doctor	Medical Access
3	Nurse	Nurse	Active	Nurse	Nursing Access
4	Receptionist	Receptionist	Active	Receptionist	Frontdesk Access
5	Lab Assistant	Lab Assistant	Active	Lab Assistant	Lab Access
